

# One day of Organometallic Chemistry

'One day of Organometallic Chemistry' will be held in Oviedo in honor of Professor Ferenc Joó from the University of Debrecen (Hungary), who has recently been awarded by the RSEQ (Premio Hispano-Húngaro Gamboa-Winkler 2015). The event is organized by the research group COMORCA and the GEQO (*Grupo Especializado de Química Organometálica, RSEQ*). The attendance is free. For further details please contact Prof. José Gimeno at: [jgh@uniovi.es](mailto:jgh@uniovi.es)

## Program

September 4th 2015 - Sala de Grados - Facultad de Química

- 9:15 Welcome and opening
- 9:30 **Dr. Eduardo Sola** *Exploiting intramolecular C-H activations in iridium complexes (CSIC, Instituto de Síntesis Química y Catálisis Homogénea, Zaragoza)*
- 10:15 **Dr. Amor Rodríguez** *Selective reduction of carbon dioxide mediated by a bis(phosphino)boryl nickel pincer complex (CSIC, Instituto de Investigaciones Químicas, Seville)*
- 11:00 **Coffee Break**
- 11:30 **Dr. Joaquín García-Álvarez** *Deep Eutectic Solvents (DESS): New biorenewable solvents for metal catalyzed organic transformations (University of Oviedo)*
- 12:15 **Dr. Iván Lavandera** *Copper-containing enzymes as catalysts applied to mild oxidative processes (University of Oviedo)*
- 13:00 **Lunch Time**
- 15:30 **Dr. Luis A. López** *Catalytic generation of zinc carbenoids from alkynes and cyclopropenes: Beyond classical reactivity patterns (University of Oviedo)*
- 16:15 **Dr. José Manuel González** *Catalytic electrophilic activation of  $\pi$ -bonds: Selective C-C bond forming reactions (University of Oviedo)*
- 17:00 **Coffee Break**
- 17:30 **Prof. Ferenc Joó** *The first 45 years of aqueous organometallic catalysis (University of Debrecen, Hungary)*
- 18:30 **Award and Closing Address**
